SUMMARY

IamaUI/UX Designer and professional Front-End Developer with a strong focus on creating responsive interfaces for client-side web applications. Currently at Red Code Solution Pvt Ltd as a intern software engineer special focus by front end development, I collaborate with both design and development teams to deliver user-centered digital experiences. I'm involved in the full front-end workflow—from designing in Figma to implementing clean, functional interfaces in code. Detail-oriented, creative, and committed to modern, high-quality UI.

TechStack: Vue.js (Frontend), PHP/Laravel (Backend)
Led frontend development for a clothing retail POS, delivering a user-friendly interface, real-time data handling, and seamless backend integration.

2.WORKERS APP– TEAM PROJECT(ON GOING)

Tech Stack: React Native (Frontend), Nest.JS (Backend)
Contributing to a workforce management app, focusing on scalable UI components, mobile responsiveness, and seamless API integration.

3.HARDWARE POS SYSTEM – TEAM PROJECT

TechStack: Vue.js (Frontend), PHP/Laravel (Backend)
Developed responsive UI components for a hardware store POS system using Vue.js, ensuring usability and seamless integration with Laravel backend APIs.

SKILLS

Design:
- Figma, Wireframing, Prototyping
- Responsive Design, Design Systems
- Skilled in Figma with UI design
- enhanced by plugins.

Tools:
- Figma

Front-End:

Frontend Technologies :
- HTML
- CSS
- JavaScript

Core Skill :
- UI/UX Design Understanding and Implementation.
- Problem Solving Skills Best Practices.
- Responsive Front-End Development.
- integrate frontend components with RESTful APIs.

Frameworks :
- React
- Vue.js
- Angular
- Laravel

Libraries & Styling :
- Tailwind CSS
- Bootstrap

Tools :
- VS Code
- GitHub
- Postman
- Net Beans

SOFT SKILLS
- Teamwork & Collaboration Communication, Attention to Detail, Problem Solving
- Time Management

PROJECTS

UI UX Design:
- E-Commerce Site(Smart Shop)Design:

Designed a client-friendly eCommerce interface in Figma, following modern UI/UX standards. Focused on clean layouts and smooth, intuitive navigation to enhance the user experience.
